

WARRANTY

Your hearing protector is covered by a limited one-year parts and labor warranty. Please see the enclosed warranty card for details.

You may refer to the parts list on the reverse side, if you choose to replace parts yourself. The parts list describes parts for this particular hearing protector only. Parts lists for other models are available on our Web Site or can be obtained by contacting Sigtronics Corporation.

Model SEP-2 Hearing Protector Instructions

The SEH-2 series of hearing protectors are adjusted at the factory for immediate use.

The head strap is adjustable so you may custom fit the hearing protector. Place the hearing protector over your head and adjust the strap until minimum pressure is felt on the top of your head. For maximum noise attenuation, the clamping pressure of the headband has been set at the factory. Releasing the clamping pressure by bending the headband is **not advised**, because loss of attenuation will result.

The hearing protector parts may be cleaned with mild soap and water using a soft cloth. Then dry immediately.

Cleaning will help the hearing protector maintain its "like new" condition for many years.
