

Sigtronics Headset Ear Seal Replacement

INSTALLATION INSTRUCTIONS

1. Trap one end of the ear seal **flap** over the ear cup **flange**.
2. Hold the trapped ear seal end with the fingers of one hand.
3. Use the index finger of your other hand to slide between the inside of the ear seal and the ear cup.
4. Use the minimum amount of force necessary to work the ear seal flap over and around the ear cup flange. Too much force will pull the ear seal off the end you are holding.
